

Official Registration of Three Wildlife Conservation Community Based Organisations in the Selous-Niassa Wildlife Corridor

By R.Hahn, April 2009

SNWC/UNDP-GEF/GTZ-IS/Wildlife Section Namtumbo District Council

The three Community Based Organisations, formed by the 12 villages responsible for conservation in the Southern part of the Selous-Niassa Wildlife Corridor, have been officially registered as Wildlife Conservation Community Based Organisations. With two CBOs already established some years ago in the northern part of the corridor this adds up to five Community Based Organisations managing the Selous-Niassa Wildlife Corridor, an area of 10.000 km² wilderness linking the largest Game Reserves in Africa.

Having achieved this important milestone the local communities are moving ahead towards their aim to gazette their Wildlife Management Areas and to obtain the user-rights over wildlife. Next important steps will be the approval of the recently completed land-use plans and the preparation of Resource Management Zone Plans for the future WMAs, all activities already scheduled for May 2009.
